

As an Indiana citizen, I am against proceeding with 02-278. I am extremely satisfied with our State's Do Not Call Law and know the effectiveness of this law will be diminished with preemption from the federal law. I have also notified my banks, two of those in the CBA, that I do not give my permission for change to the current law. I am proud that Indiana's law is one of the strongest in the nation and want to keep it that way.
